

# CREATIVE PARTNERSHIP

Moravian Library in Brno  
(Methodical centre for library construction  
and renovation)

&

Faculty of Architecture – Jan Kratochvíl  
(vertical studio- teams of students from the  
2nd and 4th years of college)

Since 2019 we connect municipal libraries  
and students through real projects.

## Why we start to cooperate?

Public libraries in small towns are:

- limited space, tight budgets,
- small libraries are at the heart of community life,
- connect future architects and librarians to understand how both sides work.

# FROM DESIGN TO REALIZATION (2023)- Stošíkovice na Louce

# FROM DESIGN TO REALIZATION (2025) - Znojmo, branch Loucká

# Benefits for both sides

- Librarians , founders , mayors gain concrete, usable solutions and understand the process of an architect's work
- Students understand the role of the library and get real -world experience

The point is simple:  
the connection work real assignments give real impacts.

Thank you ☺
