Statement

The Executive Board of the Serbian Library Association expresses its full support for the efforts of students, pupils, and citizens striving for a more just society—one in which responsibility, competence, professionalism, education, and mutual respect are valued. Any form of violence that opposes these principles will always meet our condemnation.

Adhering to the Librarians' Code of Ethics and applying high standards of social responsibility, we believe that perseverance in preserving a state governed by the rule of law, built to the measure of all citizens, is a fundamental value.

The Serbian Library Association remains consistent in its mission of providing support for responsible social action that fosters all the values of a democratic society, as well as free and equal access to knowledge and information for all citizens without distinction.

This statement is published as the majority opinion of the members of the Executive Board of the Serbian Library Association.

how it was done

By **multiplying** our capacities and potential,

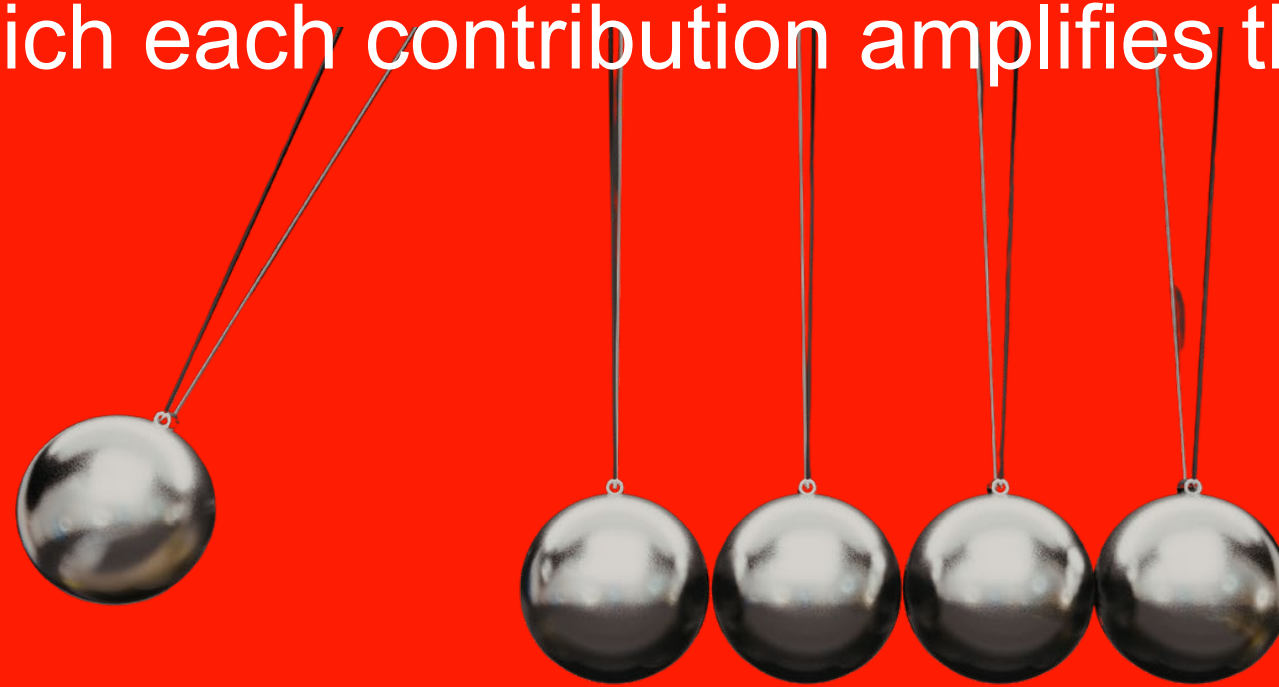

while **dividing** duties and responsibilities,

we have **expanded** our resources and audience,

thereby **reducing** our burdens.

what was learned

Through strategic action, we create a ripple effect in which each contribution amplifies the next.
